**Cake Size and Serving Chart**

The serving size of a cake varies widely based on how the cake is cut. The serving size chart below for our round and square cakes is based on party cake serving sizes. For each cake, there is a range of serving sizes, with the smaller total serving size based on a 2" by 2" by 4" serving and the larger total serving size based on a 1.5" by 2" by 4" serving (a larger slice of cake will result in a lower number of total servings and a smaller slice of cake will result in a larger number of total servings).
